CALIBRATION GAS FOR THE FIRE SERVICE

Calibration gas mixtures used to calibrate and test portable gas detection instruments for measurement of explosive gases, toxic gases and oxygen.

PORTABLE GAS DETECTION APPLICATIONS

- Confined Space Entry- H₂S/CO/CH₄/O₂
- VOC Analysis of Low Level Organic Vapours
- PID Analysis of Accelerants in Arson Investigation
- HCN & CO Analysis Post Fire / Overhaul
- CO Measurement in Homes
- Natural Gas & Propane Gas Leaks
- Toxic Gas Measurement in Hazmat Applications

Custom Gas Mixtures

Gas Control

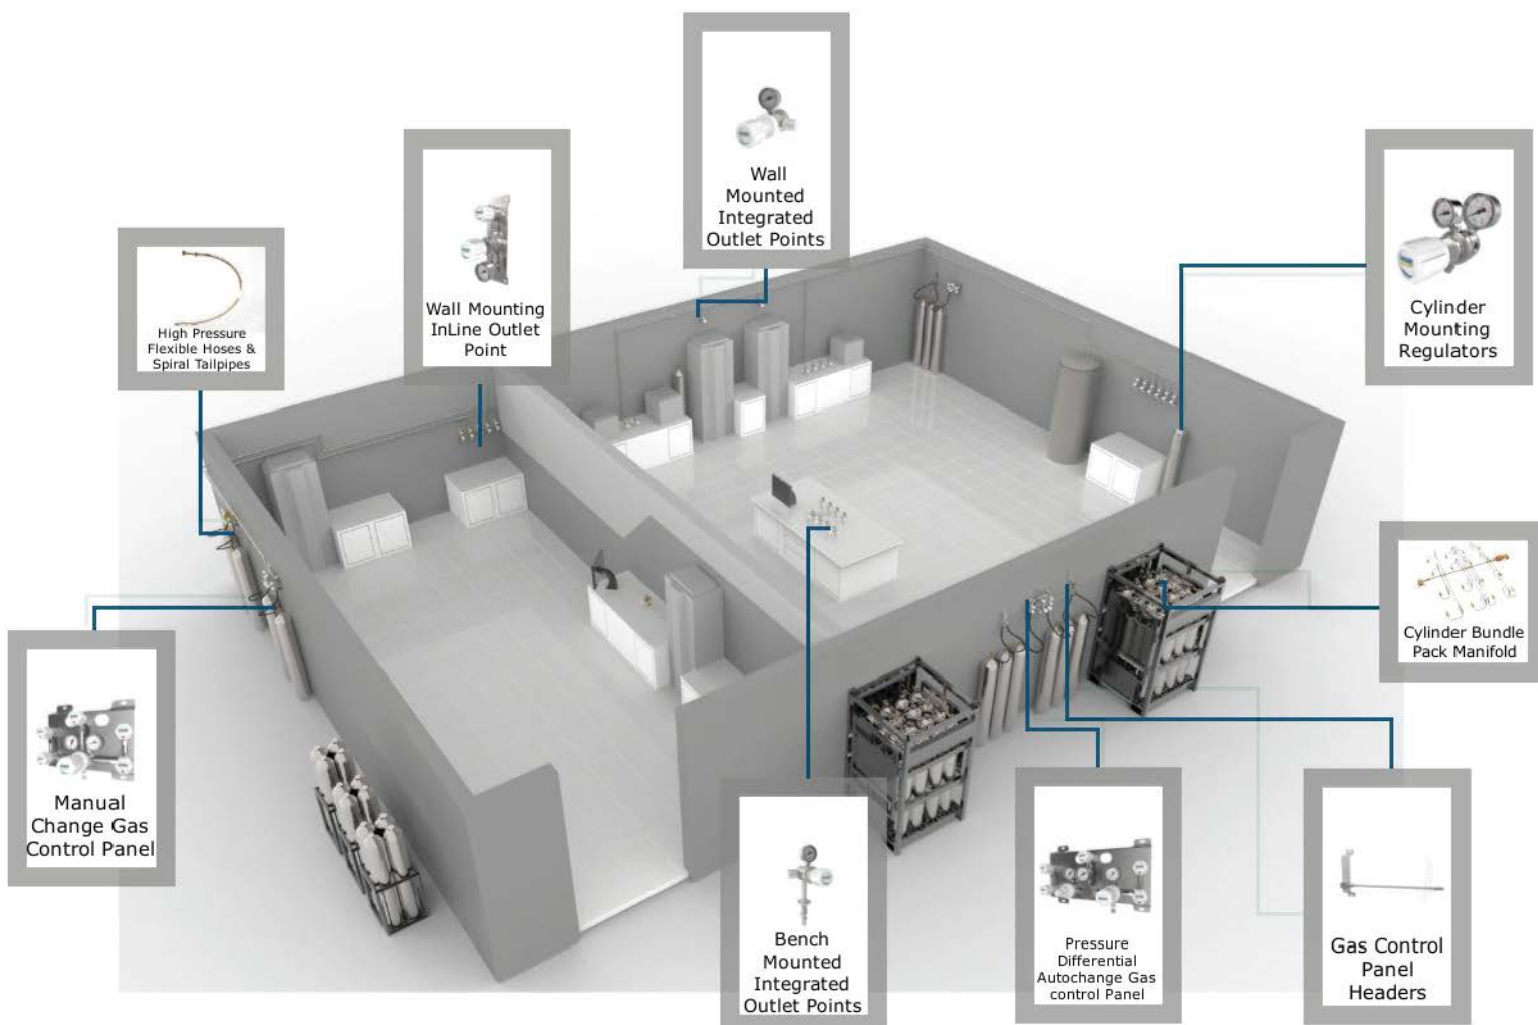

Gas Generators

Leaders in Specialty Gas Solutions.

LABORATORY GAS ANALYSERS

CAC GAS supplies bespoke specialty gas mixtures for the calibration of analysers.

- Specialty Gas Mixtures for Calibrating Gas Detection
- Specialty Gas for Gas Chromatography Analysis
- Gas Distribution Systems (GDS-100)
- Specialty Gas Regulators, Outlet Panels and Manifolds

Custom Gas Mixtures

Gas Control

Gas Generators

Leaders in Specialty Gas Solutions.

CALIBRATION & SPECIALTY GAS FOR POLICE SERVICES

- Ethanol For Breath Alcohol Testing
- VOC Measurement For Organic Compounds
- Toxic Gas Measurement of HCL, NH₃, PH₃ in Meth Labs
- Specialty Gas For Forensic Analysis
- Gas Chromatography

Custom Gas Mixtures

Gas Control

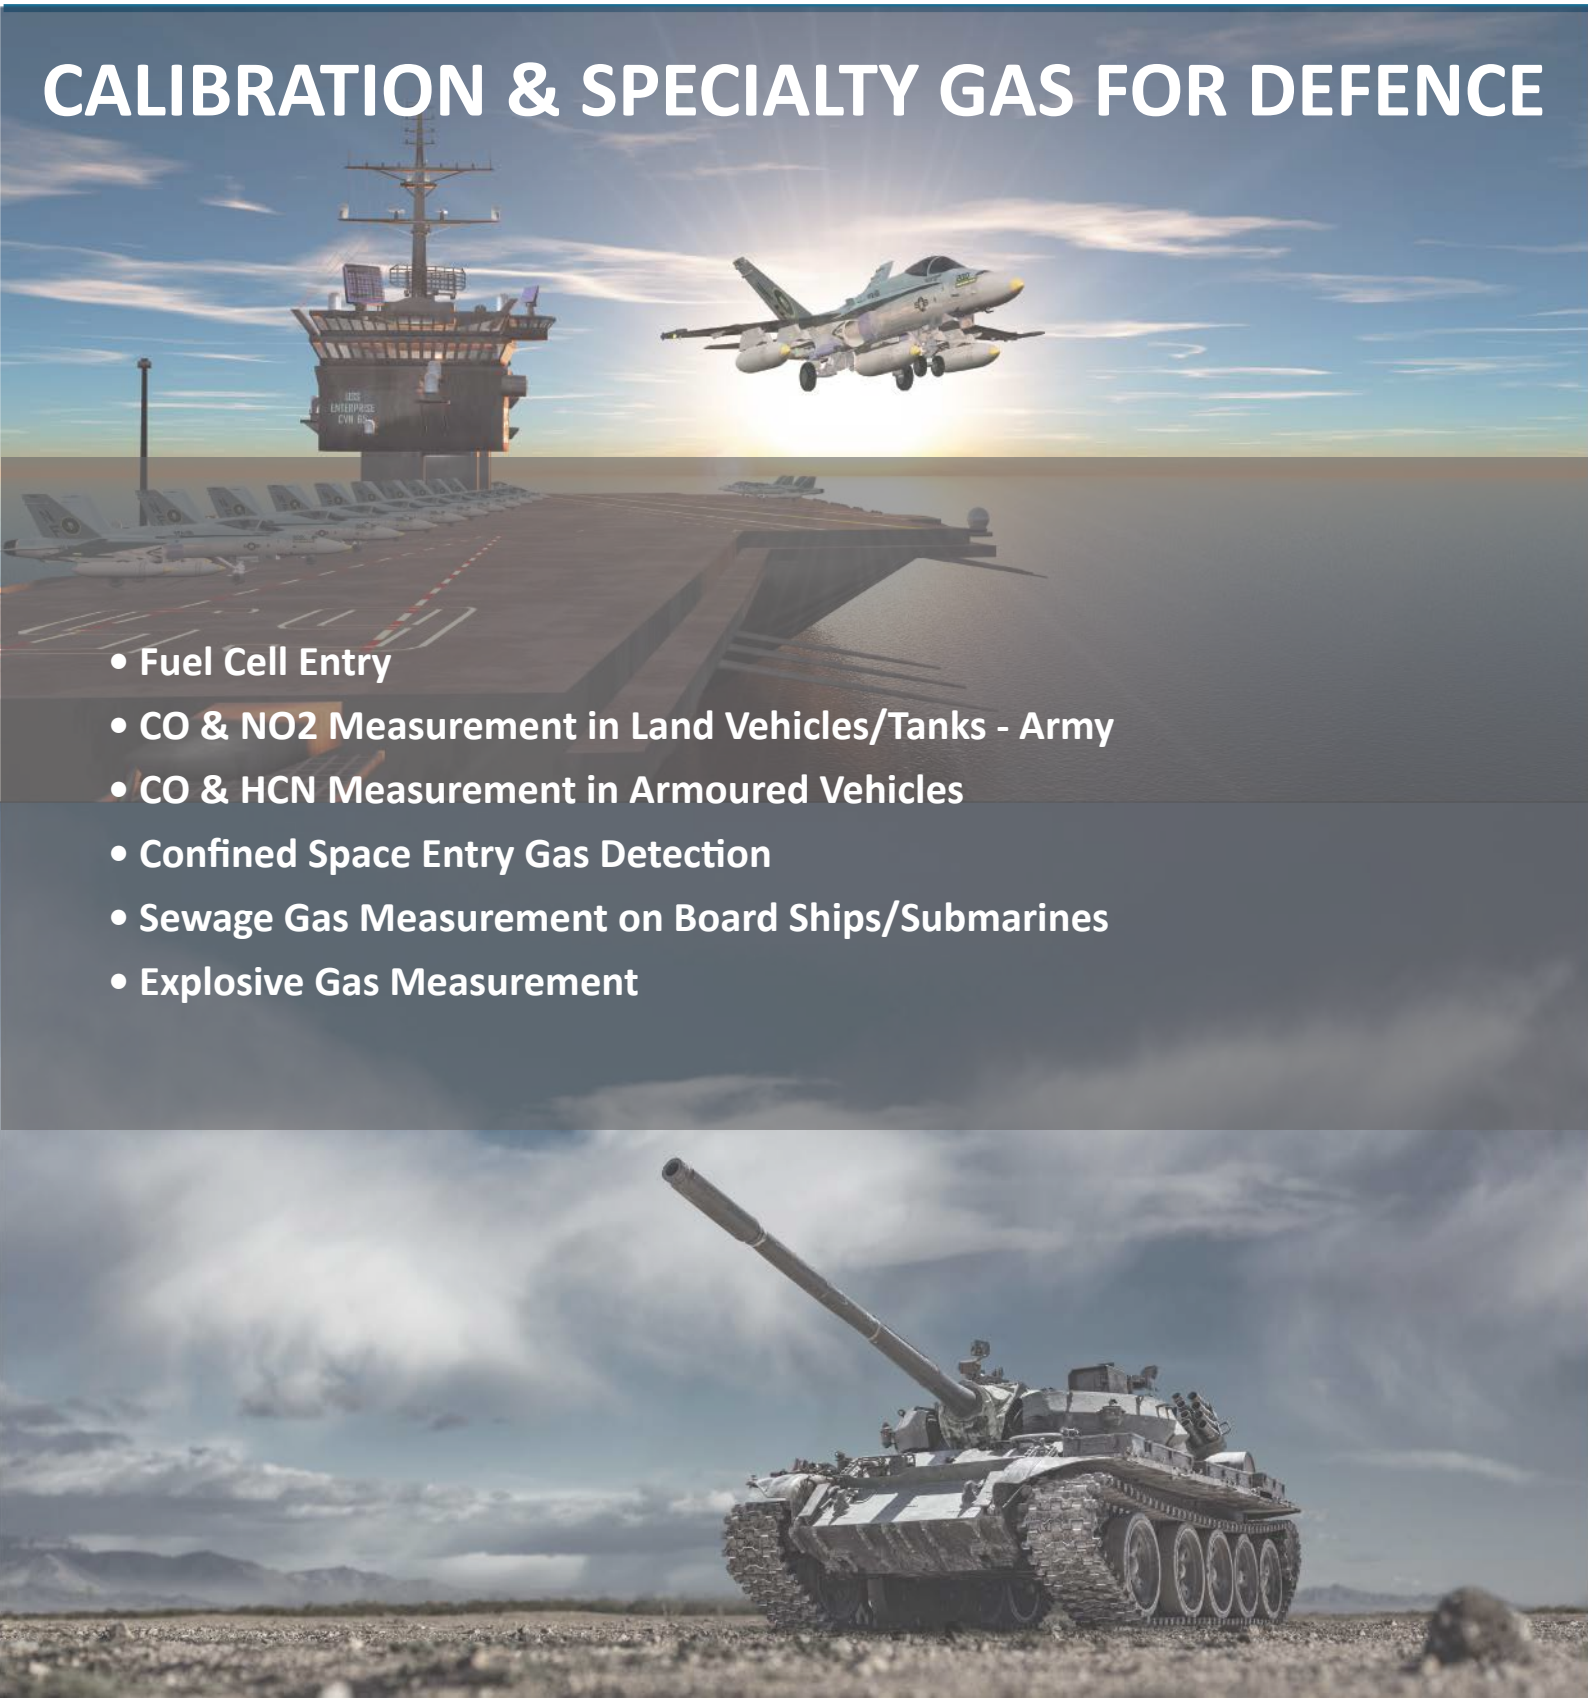

Gas Generators

CALIBRATION & SPECIALTY GAS FOR DEFENCE

- 
- Fuel Cell Entry
 - CO & NO₂ Measurement in Land Vehicles/Tanks - Army
 - CO & HCN Measurement in Armoured Vehicles
 - Confined Space Entry Gas Detection
 - Sewage Gas Measurement on Board Ships/Submarines
 - Explosive Gas Measurement
